# 31<sup>st</sup> ESCC MEETING

10 June 2021

15:00-17:30 Manila time

## **Developing a virtual CAREC Energy Reform Atlas**

As Chair of Work Stream 2 (Policy Reform and Liberalization), Mr. Bakhrom Umarbekov presented the status and components of the CAREC Energy Reform Atlas including its overall features and principles as a virtual library. Likewise, the presentation highlighted the inclusion of digital roadmaps in the reform atlas and presented the digital roadmap for the tariff reform and unbundling toolkit. The Chair requested the ESCC to kindly endorse the overall draft concept prepared in Work Stream 2.

## **Creating the first CAREC Women in Energy Program**

As Chair of Task Force C (Women Empowerment), Ms. Samira Sayed-Rahman presented the preliminary draft action plan for the 1<sup>st</sup> Women in Energy Program which has four focus areas: (i) Improving Women's Employability, (ii) Education, (iii) Visibility (inside and outside of the region), and (iv) Capacity. Ms. Rahman also mentioned that the group is currently gathering data on women's employment and main obstacles/challenges women face in advancing their careers in the energy sector. To obtain a comprehensive picture on these subject areas, the Chair requested support from member countries in responding and disseminating a questionnaire developed by the Task Force. The results of the data gathering will provide the basis for the development of the Women in Energy Program. The report shall be officially presented during the 1<sup>st</sup> CAREC Women in Energy Summit scheduled on 3 March 2022. Ms. Rahman requested the ESCC to kindly endorse the draft concept prepared in Task Force C.

## **Preparing a new regional Financing Vehicle for Green Energy Projects**

As Co-Chairs of Work Stream 3 (Energy Efficiency and Diversification of the Energy Mix), Mr. Asaf Rzayev and Ms. Margalita Arabidze presented the concept and proposed scope for CAREC Green Energy Alliance explaining that the Alliance will mainly consist of a Financing Vehicle to promote investments in energy efficiency and renewable energy projects. The Co-Chairs also presented the completed awareness raising materials on energy efficiency, in particular a consumer leaflet, and a radio and TV commercial providing helpful advice to residential consumers on how to save energy in daily life. The Co-Chairs requested the ESCC to kindly endorse the outputs prepared by Work Stream 3.

technical resources to foster interconnection among countries and address seasonal variability and uneven distribution of energy. Kazakhstan emphasized its full support for CATCA and expressed that it is looking forward to the final concept which will also contain practical implementation details around funding, staff needs and secondment arrangements. PRC added that it intends to actively participate in CATCA and said that regional infrastructure should be thoroughly assessed prior to establishing CATCA.

The draft concept for the establishment of CATCA was approved by the ESCC.

- 2) Do you endorse the TV and radio commercial prepared for broadcasting in your country? May we also share the consumer leaflet on energy efficient behavior for your further distribution to the population? Note: we can provide the TV/radio commercial in your local language after ESCC endorsement**

The ESCC fully endorsed the TV and radio commercial for broadcasting in their countries and the dissemination of the consumer leaflets on energy efficiency. Kazakhstan and Azerbaijan suggested that similar campaigns could also be considered for other consumer groups such as farmers and industrial companies. Members also emphasized that these materials shall be widely disseminated on social media, especially with the aim to reach younger generations.

- 3) Do you agree with the proposed draft structure of the Green Financing Vehicle and the CAREC Energy Outlook?**

CAREC member countries agreed with the proposed draft structure of the Green Financing Vehicle and the CAREC Energy Outlook. Pakistan informed that it intends to integrate 20% green energy in the power network by 2025 and that the Financing Vehicle as well as the CAREC Energy Outlook will be very useful to achieve this goal. PRC welcomed the initiatives and confirmed its support to promote renewable energy. Turkmenistan added that the Green Financing Vehicle is very timely for the country as it recently approved a strategy for the development of renewable energy. Overall, there was consensus among member countries that the Financing Vehicle shall include support for both renewable energy and energy efficiency.

The ESCC fully endorsed the papers prepared on the CAREC Energy Outlook and Green Financing Vehicle as prepared in the respective working groups.

- 4) Do you accept the proposed outline of the CAREC Women in Energy Program and the main online functionalities of the CAREC Energy Reform Atlas?**

CAREC member countries endorsed the proposed outline of the CAREC Women in Energy Program and the concept and functionalities of the CAREC Energy Reform Atlas. The

importance of both initiatives was acknowledged and active support on provision of data, especially on the currently circulating women-in-energy questionnaire was pledged.

## Responses from Development Partners

**AIIB.** AIIB presented its four thematic priorities in the field of energy, i.e. (i) Green Infrastructure, (ii) Connectivity and Regional Cooperation, (iii) Private Capital Mobilization, and (iv) Technology-enabled Infrastructure and presented AIIB's Multilateral Cooperation Center for Development Finance (MCDF). The MCDF is a multilateral initiative which aims to increase high-quality infrastructure and connectivity investments in developing countries in compliance with International Financial Institution (IFIs) standards, including by encouraging other investors and financial institutions to adopt such standards.

**CAREC INSTITUTE.** CAREC Institute expressed that the energy sector is one of their priority areas in their research agenda. The Institute is also planning to undertake research on three areas: 1) infrastructure gap between traditional and renewable energy sources in the region, 2) public-private partnerships, and 3) legal, regulatory, and institutional framework for traditional and renewable energy transition and cooperation mechanisms.

**EDB-ESDF.** EDB-ESDF supports the presented CAREC activities and will provide further inputs related to their initiatives in due course.

**EBRD.** EBRD expressed its gratitude to ADB and CAREC for the work that they also support. EBRD sees the energy transition as the most important challenge and opportunity for the region which is still heavily reliant on fossil fuels but has also a great potential for renewables as shown by recent auctions results. EBRD stated that it would like to closely work with CAREC on the Energy Investment Outlook, especially in relation to the Green Growth/Net zero Scenario that will be part of the outlook. EBRD would also be happy to stay involved in the discussion on the Green Financing Vehicle.

**ISDB.** ISDB fully supports the CAREC Energy initiatives especially the energy efficiency and Women in Energy Program. ISDB looks forward to working with ADB, member countries, and other development partners for the successful implementation of the initiatives.

**UNDP.** UNDP looks forward to continuing work on the energy efficiency awareness campaigns and supports the proposal to include other target groups in future campaigns. UNDP also expressed interest in sharing the videos on their own social media for more widespread distribution. UNDP also expressed that it may be interesting to see how to link the initiative of the Green Financing Vehicle with the Climate Investment Platform, a similar initiative of several international partners (<https://www.climateinvestmentplatform.com>).
